

Homework

Homework is set regularly throughout the school, the expectations and the amount increasing as your child moves up the school. Parents are encouraged to be involved in their child's work at home and to support them. Each half term we send you a copy of the topic plan for your child's year group.

Through our home reading scheme your child will bring books home to share with you or read independently.

In Reception children may bring home words to practise for reading and suggested mathematical activities.

In Year 1 the children may bring home key words to learn to spell and mathematical activities.

In Year 2 children learn spellings each week and are tested on these and also take home mathematical activities to complete.

In Years 3-6 homework encourages children to continue to develop good habits in their work, independent study skills, self-discipline and a self-motivating attitude to study.

Homework also allows them to practise and reinforce skills learned in the classroom, to consolidate and extend work begun with teachers in class.

Children may also enhance their study by making greater use of materials and sources of information that may not be available in the classroom.
